

# Minibus feature - The Ford Transit minibus

With a new and simplified series line-up comprising of the well-equipped Transit Minibus and the technologically advanced Transit Minibus Trend, the Transit Minibus now offers even more for you and your business.

With its fresh and distinctive style, safety features, tough dependability, powerful engines, superb cab environment and outstanding ride and handling the Transit Minibus will create a first-rate impression on you and your passengers. The Ford Transit Minibus has all the quality, style, comfort and safety you are looking for. Offered in 9-seat, 12-seat, 15-seat and 17-seat versions it can carry groups of almost any size in a light, spacious and safe environment.

## Exterior

The Ford Transit Minibus offers both driver and passengers superb levels of car-like comfort and safety. It delivers confident, precise handling, even at speed and with every seat occupied. This

is thanks to the revised steering, suspension and anti-lock brakes. The bold, modern exterior is specially reinforced to offer all-round passive protection. It's also versatile enough to accommodate 9, 12, 15 and 17-seat versions.

## Interior

Inside, the Ford Transit Minibus is all about spacious comfort. The two-tone instrument panel, easy-to-use controls and plentiful storage contribute to a light, roomy feel. It's crammed with innovative design, too, from the 8-way adjustable driver's seat to the folding work surface in the dash. It's also packed with technology to make your journey easier and more comfortable still. Automatic headlights, automatic wipers, cruise control and Bluetooth® and Voice Control are all optional on Transit Minibus and standard on Transit Minibus Trend.

## Comfort and control

The Ford Transit's superb car-like interior perfectly complements its dynamic exterior style. The new two-tone instrument panel gives the cab a light and luxurious feel, and is brimming with innovative and practical stowage features.

Clear instruments and easy-to-use controls help make your time at the wheel more relaxing and enjoyable, while reinforcing the high level of quality and craftsmanship to be found throughout the entire vehicle.

## Stowage compartments

The instrument panel contains two large lidded stowage compartments, the one in front of the driver containing a handy 12-volt power point. A useful fascia-top storage area is ideal for a ring-binder or clipboard and, above it, there's an innovative folding work surface, complete with twin cup holders. In a first for its class, the deep and roomy glovebox is fitted with rails to take A4 hanging files.
